

## **New Directions Club House**

### **Together We Can**

Our clubhouse is an inviting, friendly and work ordered setting that serves as a psychosocial rehabilitation program focused on facilitating our adult members with their recovery while adapting to their psychiatric disability.

Staff and members work side by side to maintain daily operations and plan for upcoming group activities.

The program stresses the development of independent living skills and can also assist those who are seeking transitional employment and housing placement opportunities.

All services are provided in a supportive environment where members are encouraged re-establish themselves in the community and begin to pursue their personal goals.

**MOVING OUR LIVES IN A POSITIVE DIRECTION**

#### **Clubhouse Mission**

To enable all persons with psychiatric disabilities to increase their functioning so they can be successful and satisfied in the environments of their choice with the least amount of professional assistance required.

#### **Clubhouse Vision**

We envision a world where persons who suffer from severe and persistent psychiatric disabilities can freely acquire all of the benefits and opportunities available within society without stigma and discrimination a world where all citizens have satisfying lifestyles which they are successfully keeping with a blend of support and independence.

#### **Clubhouse Values**

One dynamic partnership between members and staff. The values of Hope, Opportunity, Enablement, Personal Involvement, Choice, Support, Growth, Individuation and Functioning form our foundations and drive all our endeavors.
